#### **DETAILED ACTION**

## **Faxing of Responses to Office Actions**

In order to reduce pendency and avoid potential delays, TC 3700 is encouraging FAXing of responses to Office Actions directly into the Group at (703)872-9302 (Official) and (703)872-9303 (for After Finals). This practice may be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into TC 3700 will be promptly forwarded to the examiner.

1. After further considertion of the amended claims, the examiner has withdrawn the previous final rejection in view of the newly discovered references. Rejections based on the newly recited references follow.

Application/Control Number: 10/003,028 Page 3

Art Unit: 3722

## **Double Patenting**

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claim 14 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 8 and 9 of U.S. Patent No. 6,547,502. Although the conflicting claims are not identical, they are not patentably distinct from each other because both discloses a coil spreader system comprising: two spreader members, wherein one member is insertable within respective coils at a respective point before the leading edge of the spiral enters a

Application/Control Number: 10/003,028 Page 4

Art Unit: 3722

final hole, and another spreader member insertable within respective coils at the trailing edge of

the before entry into a first hole.

4. Claim 14 is provisionally rejected under the judicially created doctrine of obviousness-type

double patenting as being unpatentable over claims 18 and 19 of copending Application No.

10/215,656. Although the conflicting claims are not identical, they are not patentably distinct

from each other because both discloses a coil spreader system comprising: two spreader members,

wherein one member is insertable within respective coils at a respective point before the leading

edge of the spiral enters a final hole, and another spreader member insertable within respective

coils at the trailing edge of the before entry into a first hole.

This is a provisional obviousness-type double patenting rejection because the conflicting

claims have not in fact been patented.

Allowable Subject Matter

5. Claims 16-17 are objected to as being dependent upon a rejected base claim, but would be

allowable if rewritten in independent form including all of the limitations of the base claim and any

intervening claims.

#### **Contact Information**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark T. Henderson whose telephone number is (703)305-0189. The examiner can be reached on Monday - Friday from 7:30 AM to 3:45 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner supervisor, A. L. Wellington, can be reached on (703) 308-2159. The fax number for TC 3700 is (703)-872-9302. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the TC 3700 receptionist whose telephone number is (703)308-1148.
